### **Amazing Charts Selects Lightbeam Health Solutions for Offsite Patient Data Backup and Disaster Recovery**

*The companies will work together to ensure patient data is secure for more than 10,000 physicians through Lightbeam's Dynamic Vault services*

**IRVING, Texas** – February 11, 2015 – [Lightbeam Health Solutions](#), a leader in end-to-end population health management, announced today a partnership with a leading developer of electronic health record (EHR) systems for physician practices, Amazing Charts. Through this partnership, Lightbeam will offer its Dynamic Vault services including Offsite Backup Manager and Disaster Recovery, to allow physicians flexibility, support and data security.

A subsidiary of Pri-Med, Amazing Charts EHR has been adopted by more than 10,000 physicians in over 6,800 private practices. The company is partnering with Lightbeam in an effort to further fulfill its mission to improve patient health outcomes and provide peace of mind to their clients knowing their protected health information is secure and available through affordable, practical, and proven software technology.

"When evaluating our options for backup and disaster recovery support, Lightbeam's solutions outshined competitors through their efficiency, flexible administration tools and outstanding customer support and service," said Matt Pierce, Amazing Charts vice president of business development. "We are excited about providing our customers with a reliable insurance policy, in essence, allowing piece of mind and flexibility to accommodate the busy schedules of physicians."

Lightbeam's Dynamic Vault Offsite Backup Manager offers an easy-to-use and reliable remote storage solution to ensure that important enterprise or personal data is safe and secure. Also, the Disaster Recovery Solution protects organizations in the event that all or part of its operations and/or computer services are rendered unusable.

"Now that the market has adopted mission-critical EHR systems, it is important that health care provider organizations reliably back up and protect patient data. Lightbeam's advanced data solutions will help Amazing Charts' 10,000 physicians do just that," said Jerry Shultz, president of Lightbeam Health Solutions.
