Village Family Practice Selects Lightbeam Health Solutions for Population Health Management Across Multiple Value-Based Contracts

Houston-based practice to leverage the Lightbeam platform to lower costs and improve care for diverse pool of value-based contracts and large patient population

IRVING, Texas – February 18, 2015 – [Lightbeam Health Solutions](#), Inc., a leader in end-to-end population health management solutions, announced today an agreement with Village Family Practice of Houston. Village Family Practice is a growing 25 provider Multi-Specialty practice serving approximately 75,000 patients across the Houston Metropolitan area. Village Family Practice will be leveraging Lightbeam’s population health platform to manage the practice’s multiple value-based contracts through comprehensive analytics, risk stratification, care coordination, patient engagement and more, all on a single, unified platform.

Village Family Practice was founded on the belief that family medicine should be centered on providing lasting, caring relationships with patients and their families, emphasizing the importance of understanding the impact of a patient’s health history and situation, and taking the time to listen and help each individual.

“Here at Village Family Practice, we have a long history of success with value-based contracts,” said Clive Fields, M.D. “We are excited about using the Lightbeam platform to help us manage chronic conditions and disease states, avoid readmissions, and ultimately improve the quality healthcare we deliver to our patients while reducing overall costs.”

“We’re delighted to add Village Family Practice to our growing base of passionate, forward-thinking client partners” said Jerry Shultz, President of Lightbeam Health Solutions. “The practice’s vision aligns perfectly with what our solutions were built for, and we look forward to working with the Village team to ensure their patients continue to receive the right care at the right time.”
